# venice

noce marino gloss & white gloss

The 'wow' factor Venice handleless door makes for a warm and generous kitchen and gives a tremendous boost to those wanting that linear look! Always be open to new ideas, use panelling on the wall as an enhancement to the room or add shelves for an extra dimension.

vinyl  
premier  
cream gloss

Make your dreams come true with a few secrets. With a hint of creative flair doors can hide appliances and larders where it is impossible to tell which is a door and which is a drawer. What is seen as a complete bank of drawers is not actually that - the secret is - they conceal drawers, cupboards and integrated appliances, giving a real minimalist feel.

home office lissa oak

Don't be afraid to experiment with colour in your own home office, you'll never be able to do it in a company owned office! Colour is easy on the eye and it will make your days pass by very quickly, even if you're staring at a computer screen all day! Home office furniture has to be made-to-measure and can be produced to fit snugly into any confined space, even fitting perfectly under the slope of the stairs!
